

Promoting Success for You & Your Students!

Why do I offer so many free activities?

Yes, I do have a lot...over 200 at the time of writing this...and that number grows monthly.

I do this for several reasons:

- I love helping teachers. As a former teacher, I understand your limited time. I also know the demands and expectations have increased since I was in the classroom.
- I want you to try before you buy. If it won't work for your students, then I don't want you to buy it. Free samples are the answer.
- I know you don't always need a full product.
 Sometimes, you just want a quick and easy activity or formative assessment. I don't mind. Download all the freebies you need. I'm here for you.

I could help you more if I knew what grade level you teach. Just enter your email, and I'll send you a form to let me know your grade level. I will also give you another freebie. It's simple, just click <u>HERE</u>.

Thank you for all you do for kids! You are appreciated! ~Shelly Anton

This worksheet is a sampler from the full set of math worksheets found here:

Apples Math Packet

These worksheets will supplement your back to school, apples, or Dr. Seuss activities. Students will practice counting, addition, subtraction, greater than/less than, time, money, sequencing, patterns, place value and skip counting. Answer keys are also included. These are simple math worksheets with minimal distractions on each page, which works well for preschool, kindergarten, 1st grade and students with special needs.

Apples Life Cycle Interactive Notebook Activity

Students will color, cut and assemble the life cycle of an apple in this foldable craftivity. This activity may be use in summer school or as a back to school activity. In addition, there is a writing paper for students to summarize the stages.
